February 2024

Dear Parent/Guardian

As part of Hans Moore High School's career guidance programme, we have launched a project for our Grade 10-11 learners that will expose them to the world of work and different careers. The Career Shadowing Project is specifically aimed at guiding learners on their way to an informed career decision.

Your child needs to attend one full workday before or during the holiday at a workplace of his/her choice. Learners are responsible for organising their own work and transport arrangements.

Report forms that the employer and your child will have to complete, will be handed out to your child shortly. Copies thereof will also be added to the HM website. These forms need to be handed in promptly to your child's LO educator during the first week of Term 2 (Friday 5 April 2024). A short CV/resumé for your child should also be compiled and handed in. The reports and CV will be marked and forms part of his/her mark for the third term.

We would like to request from you as parent/guardian to support this project and assist your child in exploring the world of work.

Thank you for your support in this regard.

Kind regards,

Mr. M. Mearns
PRINCIPAL

Mrs. J. Amorim
